

PROFESSIONAL SUMMARY

Dedicated Quality Assurance Tester with testing Knowledge, specializing in manual and automated testing methodologies. Skilled in Selenium WebDriver, Cypress, and JMeter with proven success in developing automated test scripts, executing performance testing, and achieving 90% test coverage across critical application modules. Management Information Systems graduate proficient in API testing, bug reporting, and test documentation. Demonstrates strong collaboration skills in cross-functional development environments using Git and GitHub.

KEY STRENGTHS

- Test Automation (Selenium, Cypress)
- Performance Testing (JMeter)
- API Testing
- Manual Testing
- Test Case Management
- Browser Automation
- Version Control (Git, GitHub)

Technical Knowledge

Testing Tools: Selenium WebDriver, Cypress, JMeter, Chrome-driver
Testing Types: Manual Testing, Automated Testing, Performance Testing, API Testing
Version Control: Git, GitHub
Reporting: Mochawesome, Comprehensive Test Documentation
